

KAIST FALL 2024

CS473: INTRO TO SOCIAL COMPUTING

SOCIAL.CSTLAB.ORG

Class 22: Human-AI Interaction

2024.12.05
Joseph Seering

Final Exam

- Final exam is **Thursday 12/19 from 9AM-11:45AM** in this room.
 - I do not expect the exam to take this full amount of time.
- A set of possible exam questions will be released by the end of the day on Monday 12/16.
- The format is multiple choice and short answer. Questions will be taken from your reading responses as well as past questions from the Stanford version of this class.
 - I may edit your reading response questions slightly before turning them into exam questions.
- If your question shows up on the exam, as a bonus, you don't have to answer it. You can just circle your name and you will receive full credit for that question.
